

JONATHON M. SEIDL

UNLOCK THE POWER OF STORYTELLING

For the last decade, Jonathon M. Seidl (Jon) has been telling stories. In fact he's written over 6,000 of them, first after helping start a top-50 news site, then as the editor-in-chief of the popular non-profit I Am Second, and most recently as the head of digital media for actor Kirk Cameron's properties. Jon has seen how the power of storytelling can transform people, businesses, and culture, especially after sharing his own story of overcoming anxiety and OCD. His passion is to share what he's learned telling stories for — and working with — some of media's biggest names and organizations, including Glenn Beck, Kirk Cameron, and Chip and Joanna Gaines.

"As someone who experienced growing up in the Hollywood world of fake news façades and make believe, I can spot a genuine person with ease. Working with Jon Seidl has been a joy and I have found him to be thoughtful, dynamic, and insightful. His experience in the media and his unique ability to tell stories that fascinate make him a needed voice in our media-centered cultural conversation."
— Kirk Cameron, Actor

"In every experience in working with Jon, I've noticed he encompasses the best of 'both worlds.' He is warm and open, while being a consummate professional. He is an authentic and a creative storyteller, and yet is detailed and direct. He is extremely qualified as a writer, editor, and curator of inspiring content, while also being relatable, honest, and vulnerable at every turn."
— Kirsten Haglund, Miss America 2008

"Jon is a gifted writer and communicator who cares deeply about issues that are important to talk about in today's world."
— Adam Kail, Founder of Brothers Leather Supply Co.
